Mohamed Latif

Mobile Application Developer

Cairo, Egypt eng.latif.official@gmail.com +201017991322

Summary

Mobile Application Developer with 10+ years of software development experience in front-end and cross-platform mobile projects. Adept at problem-solving, team leadership, and delivering Android/iOS apps from concept to store launch. Proven track record of managing complex projects, mentoring junior developers, and leveraging modern frameworks such as React Native, Ionic/Angular, Vue Native, and Node.js.

Technical Skills

Programming & Frameworks: JavaScript (ES6), TypeScript, React, React Native, Angular, Vue Native, Node.js, Express.js, Next.js
Mobile Development: React Native (iOS & Android), Ionic, Swift (SwiftUI)
Back End & Databases: Node.js, MongoDB, RESTful APIs, GraphQL, Redux, Redux Toolkit
Other Skills: OOP, SOLID Principles, Design Patterns, Unit Testing, Git
Soft Skills: Self-learning, Communication, Innovation

Experience

React Native Developer – Madac
Cairo
January 2023 – Present

- Developed and maintained mobile applications using React Native, Redux Toolkit, and GraphQL.
- Led a cross-functional team to implement features that improved user engagement by 30%.
- Deployed Android and iOS versions to Google Play and the App Store, handling the release processes.

React Native Developer – Alrajhi Bank
KSA
January 2022 – December 2022

- Designed and fixed complex features for the bank's mobile apps using TypeScript, React Native, and Redux.
- Collaborated with product managers to enhance UX, resulting in a 15% increase in user satisfaction.
- Streamlined bug-fixing processes, reducing average resolution time by 40%.

React Native Developer – Brmaja
Cairo
December 2020 – December 2021

- Maintained and solved bugs for existing React Native apps and developed new features in TypeScript.
- Participated in key technological decisions to improve overall project efficiency.
- Published stable Android and iOS apps to their respective stores.

React Native Developer – GET Group
Cairo
March 2020 – December 2020

- Maintained existing React Native apps (using React, ContextAPI, Redux) and developed new modules.
- Published updated versions to both Play Store and App Store, ensuring continuous delivery of improvements.

IONIC/ANGULAR – React Native Developer – Beshara Group
Kuwait/Cairo
March 2020 – December 2020

- Maintained and improved existing Ionic-Angular and React Native apps.

- Identified and resolved performance bottlenecks, improving responsiveness.
- Oversaw multiple releases to Android and iOS stores.

IONIC/ANGULAR Developer – Alxtel
USA (Remote)
March 2020 – December 2020

- Developed new features and fixed issues in Ionic-Angular applications.
- Implemented best practices to streamline code management and deployments.
- Successfully published cross-platform applications to their respective stores.

Full Stack Trainee – ITI (Information Technology Institute)
Alexandria
December 2016 – May 2017

- Completed a five-month full-stack development program, achieving a Grade A+.
- Gained hands-on experience in front-end and back-end technologies, project collaboration, and version control.

PHP / WordPress Developer – Ait Systems
Cairo
March 2014 – January 2016

- Worked as a PHP developer using Laravel for back-end and basic front-end development.
- Developed three WordPress sites, focusing on custom themes and plugins to meet client requirements.

Education

B.Sc. in Computers and Systems Engineering – Ain Shams University
Cairo
2007 – 2012

- Graduation Project Grade: Very Good

Diploma in Computer and Systems Engineering
Cairo
2023 – Present

- Currently pursuing advanced coursework in computer and systems engineering concepts.

Personal Data

- Military Status: Exempted
- Nationality: Egyptian
